However, copies of any or all of the other listed items will gladly be furnished upon request. ¹ The three newly cited patents were each described in the International Search Report of Applicant's related PCT application (PCT/US00/42285) as "Category A," that is, a document "defining the general state of the art which is not considered to be of particular relevance." Lucero and Eiba were described as Category A with respect to claims 1, 2, 6, and 7. Walsh was described as Category A with respect to claims 1 and 6.

construed as an admission that any such patent, publication or other information referred to therein, or any combination thereof, is material or considered to be material (37 CFR §1.97(h)) or even qualifies as "prior art" under 35 USC §102 or §103 with respect to this invention unless specifically designated by Applicant as such.

Furthermore, the submission of the above listed items is not to be construed as a representation that an exhaustive search, or any search, has been made, or that additional information material to the examination of this Application does not exist.

This IDS is believed to be timely in that it is being submitted under 37 CFR §1.97(b)(1) and (3), that is, within the first three months of filing and before the first Office Action on the merits. Thus, no petition or fee is required. However, if the undersigned representative of Applicant is in error in this regard, then the Examiner is requested to consider this IDS as filed under §1.97(c) and is further authorized to charge any fee required by its filing to Deposit Account No. 09-0946.

Respectfully Submitted,
